

## Nicki and Barnaby

Barnaby is a big footed part Irish hunter who suffered with a choppy stride, tripped and stumbled on a regular basis.

He was first shod with Cytek over a year ago and is going from strength to strength. As there are no Cytek farriers near Dover, Nicki pays for a Cytek farrier to drive 2 hours from Berkshire to shoe Barnaby.

Nicki is also having her new horse converted to Cytek because of the unbelievable difference it made to Barnaby. Nicki wishes a local farrier would train to use the Cytek system so she and other local horse owners could benefit from Cytek.
