

Ken S & Shiloh
From
Ormeau, Queensland

- 1) What was your horse like before being shod with Cytek?
Destined to be destroyed due to ringbone.
- 2) Why did you choose to go to Cytek?
Last resort and frustration about the misinformation blurted out by so called experts!
- 3) What disciplines do you and your horse(s) compete in?
Trail riding
- 4) How has your horse changed since being shod with Cytek?
3 years later, alive!!! Which defies all predications the ringbone problem has reduced and is now manageable. The horse is a different horse – full of energy – a very happy horse.
- 5) How long has your horse been shod with Cytek?
3 years
- 6) Would you recommend Cytek to other horse owners?
I feel sad that owners are not aware of what their horses face without Cytek
